

# Announcing Red Hat Training courses in the Partner Training Portal at no cost

## Courses added in 2023

Red Hat OpenShift Developer I: Introduction to Containers with Podman (DO188) 32 hours A developer introduction to building and managing containers with Podman for deploying applications on Red Hat OpenShift Container Platform.
<b>Red Hat Single Sign-On Administration (DO313)</b> 24 hours Introduction to configuring and managing Red Hat Single Sign-On for authenticating and authorizing applications.
Managing Virtual Machines with Red Hat OpenShift Virtualization (DO316) 24 hours Create and manage virtual machines on OpenShift using the Red Hat OpenShift Virtualization operator.
Red Hat DevOps Pipelines and Processes: CI/CD with Jenkins, Git, and Test Driven Development(D0400)32 hoursBuild essential skills to implement agile and DevOps development processes and workflows.
Managing Enterprise Automation with Red Hat Ansible Automation Platform (DO467) 32 hours Manage complex Red Hat Ansible automation workflows at scale and prevent single points of failure.
Multicluster Management with Red Hat OpenShift Platform Plus (DO480) 32 hours Enhance container management capabilities with automation, governance, and security across clusters.
Red Hat Satellite 6 Administration (RH403) 40 hours

Learn how to configure Red Hat Satellite 6 to deploy and manage Red Hat Enterprise Linux systems and software.

### Courses added May 27, 2022

## Cloud-native API Administration with Red Hat 3scale API Management (DO240)

#### -32 hours

Manage, monetize, and secure APIs with Red Hat 3scale API Management.

## Red Hat Enterprise Linux 8 New Features for Experienced Administrators (RH354)

#### 32 hours

Prepare yourself for Red Hat Enterprise Linux 8 by learning about changes to the operating system.

## **Courses added April 8, 2022**

## **Cloud-native Integration with Red Hat Fuse (AD221)**

#### 32 hours

Integrate applications and services with Red Hat Fuse and Camel.

٦	

## Cloud Storage with Red Hat Ceph Storage (CL260)

40 hours

## Build, expand and maintain cloud-scale, clustered storage for your applications with Red Hat Ceph Storage.

## Red Hat OpenShift Migration Lab (DO326)

## 24 hours

Migrate application workloads, including its Kubernetes resources, data, and container images, when upgrading from OpenShift 3 to 4 or from OpenShift 4.x to the latest version.

Г	
L	

## Enterprise Kubernetes Storage with Red Hat OpenShift Data Foundation (DO370)

#### 40 hours

Design, implement, and manage a Red Hat OpenShift Data Foundation cluster and perform day-to-day Kubernetes storage management tasks.

## Red Hat Virtualization (RH318)

40 hours Deploy, configure, manage, and migrate virtual environments.

## Courses added March 2, 2022

Red Hat

	<b>Developing Application Business Rules with Red Hat Decision Manager (AD364)</b> 24 hours Introduction to authoring and deploying business rules with Red Hat Decision Manager.
	<b>Red Hat AMQ Administration (AD440)</b> <i>16 hours</i> Learn to configure, manage, and monitor broker instances.
	<b>Developing Event-Driven Applications with Apache Kafka and Red Hat AMQ Streams (AD482)</b> 24 hours Develop, scale, and troubleshoot event-driven microservice applications.
	Red Hat OpenStack Administration 1: Core Operations for Cloud Operators (CL110) 40 hours Learn to operate a Red Hat OpenStack Platform private cloud and manage domain resources to secure and deploy modern, scalable cloud applications, networks and storage.
	<b>Red Hat OpenStack Administration 2: Day 2 Operations for Cloud Operators (CL210)</b> 32 hours Build advanced skills for performing Red Hat OpenStack Platform day 2 operations and management of hybrid cloud infrastructure.
	Introduction to OpenShift Applications (DO101) 8 hours A developer-focused introduction to OpenShift application building, deployment, scaling, and troubleshooting.
	<b>Red Hat OpenShift I: Containers &amp; Kubernetes (DO180)</b> 24 hours Introduction to building and managing containers for deployment on a Kubernetes and OpenShift 4 cluster.
	<b>Red Hat OpenShift Administration II: Operating a Production Kubernetes Cluster (DO280)</b> 24 hours Configure, manage, and troubleshoot OpenShift clusters and containerized applications.
	<b>Red Hat OpenShift Development II: Containerizing Applications (DO288)</b> 32 hours Design, Build, and Deploy containerized applications on Red Hat OpenShift.
	<mark>Red Hat OpenShift Installation Lab (DO322)</mark> <i>16 hours</i> Installing OpenShift on a cloud, virtual, or physical infrastructure.
A Pod	EMEA Partner Development – April 05, 2023

Red Hat OpenShift Service Mesh (DO328) 24 hours Control, manage, trace, monitor, secure, and test your microservices with Red Hat OpenShift Service Mesh.
Developing Advanced Automation with Red Hat Ansible Automation Platform (DO374) 32 hours Advance your Ansible skills and develop automation that scales by applying recommended practices with the new, container focused tools from Red Hat Ansible Automation Platform.
<b>Red Hat Cloud-Native Microservices Development with Quarkus (DO378)</b> 32 hours Develop microservice-based applications with Quarkus and OpenShift.
<b>Red Hat OpenShift Administration III: Scaling Kubernetes Deployments in the Enterprise (DO380)</b> 32 hours Plan, implement, and manage OpenShift clusters at scale.
<b>Red Hat System Administration 1 (RH124)</b> <i>40 hours</i> The first of two courses covering the core system administration tasks needed to manage Red Hat Enterprise Linux servers.
<mark>Red Hat System Administration 2 (RH134)</mark> 40 hours Focuses on the key tasks needed to become a full-time Linux administrator.
<b>Red Hat Enterprise Linux Automation with Ansible (RH294)</b> 32 hours Learn how to automate Linux system administration tasks with Red Hat Ansible Automation Platform.
