and build your business.

Advanced Application Deployment with Red Hat OpenShift Container Platform

Red Hat Cloud-Native Microservices Development with Quarkus (DO378)

Online self-paced, 32 hours

Develop microservice-based applications with Quarkus and OpenShift.

Building Resilient Microservices with Istio and Red Hat OpenShift Service Mesh (DO328)

Online self-paced, 24 hours

Control, manage, trace, monitor, secure, and test your microservices with Red Hat OpenShift Service Mesh.

Developing Event-Driven Applications with Apache Kafka and Red Hat AMQ Streams (AD482)

Online self-paced, 24 hours

Develop, scale, and troubleshoot event-driven microservice applications.

Advanced Topics in Red Hat OpenStack Platform

Red Hat OpenStack Administration II: Day 2 Operations for Cloud Operators (CL210)

Online self-paced, 32 hours

Build advanced skills for performing Red Hat OpenStack Platform day 2 operations and management of hybrid cloud infrastructure.

Find your level,
improve your knowledge
and build your business.

Red Hat OpenShift Post Install Configuration With Red Hat Advanced Cluster Management For Kubernetes

Red Hat OpenShift Administration III: Scaling Kubernetes Deployments in the Enterprise (DO380)

Online self-paced, 32 hours

Plan, implement, and manage OpenShift clusters at scale.

Multicluster Management with Red Hat OpenShift Platform Plus (DO480)

Online self-paced, 32 hours

Enhance container management capabilities with automation, governance, and security across clusters.

Advanced Red Hat OpenShift Virtualization

Managing Virtual Machines with Red Hat OpenShift Virtualization (DO316)

Online self-paced, 24 hours

Create and manage virtual machines on OpenShift using the Red Hat OpenShift Virtualization operator

Advanced Deployment with Red Hat Ansible Automation

Developing Advanced Automation with Red Hat Ansible Automation Platform (DO374)

Online self-paced, 32 hours

Advance your Ansible skills and develop automation that scales by applying recommended practices with the new, container focused tools from Red Hat Ansible Automation Platform.

Managing Enterprise Automation with Red Hat Ansible Automation Platform (DO467)

Online self-paced, 32 hours

Manage complex Red Hat Ansible automation workflows at scale and prevent single points of failure.
