

Red Hat
Ascend Skills
Network

Build your open source, cloud native skills at the speed of technology change.

Join a community of Red Hat® technology specialists and build your skills and expertise to drive successful open source solutions.

The Red Hat Ascend Skills Network addresses enablement opportunities for the tech development community:

Developer constraint: →
Lack of learner engagement
Solution benefit:
Constant interaction and
engagement with
Red Hat experts

1

2

← **Developer constraint:**
Limited opportunities to apply
knowledge in projects
Solution benefit:
Access to an exclusive
knowledge repository of expert
talks and real-world scenarios
(on-demand sandboxes and
hands-on sessions)

Developer constraint: →
Staying up-to-date with
technology change
Solution benefit:
Updated curriculum and
resources that provide
latest technology content

3

4

← **Developer constraint:**
No access to an integrated
resource pool on
products/technologies
Solution benefit:
Multiple avenues to collaborate
and participate in internal and
external forums/groups

Developer constraint: →
Absence of an active
community or special
interest groups
Solution benefit:
Opportunity to be part of the
Community of Practice (CoP)
and become a mentor/coach/
influencer

5

6

← **Developer constraint:**
Limited opportunities
for innovation
Solution benefit:
Ideate and build joint solutions
through Red Hat Ascend Skills
Network hackathons

Opportunity to create unique
intellectual property for your
organization

Red Hat Ascend Skills Network is different from other training programs.

Hone your skills by shifting focus from one-time, snapshot training to continuous enablement

Gain access to the critical tools needed to become practitioners

Gain project-ready skills through continuous developer engagement programs (virtual playgrounds, sandboxes, and DevOps/developer tools)

Collaborate with specialists, leaders, and mentors within partner organizations and Red Hat, and expand your capabilities on Red Hat technologies

Developers:

Upskill in the latest open source technologies

Become a cloud technology practitioner

Gain knowledge to solve real-world customer problems

Gain mentorship opportunities to guide/lead technologists, as well as CoP initiatives and events

Sales Engineers and Architects:

Expand into managed services and cloud services

Ramp up quickly with a learning path curated by Red Hat subject matter experts

Increase your cloud expertise with a special focus on objection handling and capacity planning with Red Hat products on public cloud infrastructure

Customer-facing Sales functions:

Take advantage of the partner connect program offered at no cost

Accelerate time-to-market to serve your customers' business needs

Build a competitive differentiator by gaining knowledge to penetrate deeper into customer accounts

Showcase your achievement!

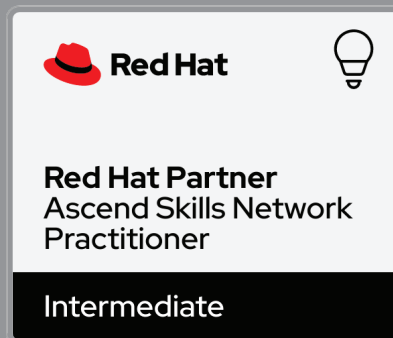

Earn a Red Hat Ascend Skills Network certificate of recognition and continue your quest for learning

Be included in the exclusive, organization-wide directory of Red Hat Ascend Skills Network of professionals

Digital Credential Program - Credly badge for the Red Hat Ascend Skills Network

Celebrating you and your accomplishments!

For Red Hat customers, partners, and associates, the Red Hat Credential Program celebrates your professional education achievements and experience, program participation, and contributions to the community. And it recognizes and rewards your engagement with ecosystems that support customer success in adopting Red Hat technologies.

**Scale your business and skills with cloud native technologies.
