

RHPS How to Request / Renewal

RHPS Approval process is the same for request and renewal

Partner is required to request a partner subscription through a user interface on connect.redhat.com. The RHPS user interface will confirm a set of criteria and approve the 1st partner subscription on the account if the criteria is met.

- The criteria for approval on the account making the request is as follows:
- The RH partner agreement must have accepted
- The RH Partner Subscription terms and conditions must have been accepted
- The requestor must be the Org Admin on the account
- An active RH Partner Sub isn't currently on the account, or the active sub on the account is within 30 days of expiration
- The partner account must not be in the CCSP partner program
- The requestor email domain must not be flagged for manual approval
- If any automated approval check fails the partner will be directed to the Partner Acceleration Desk to submit a case.
